
Book review Assignment

Book Name :The Firm

Author Name :John Grisham

Student Name:M.Rithik

Roll number :24BTBOA37

Introduction:

Since i was a little kid, I enjoyed tight knitted Thrillers both in books and also at the movies .

I feel lawyers especially non criminal lawyers have such a cool occupation and it's very interesting to know about them. I am sure i wanted to be a lawyer among other other options at some point . Hence when I got to know that

THE FIRM by John Grisham is one of the best books in the legal drama genre I just wanted to read this book asap. But finally i got a chance to do that through this assignment .To be very honest i didnt really have any idea that there were these many Novels in the library. Guess i didnt explore that part of the library back then.

Ya so when i picked this book for my assignment i knew its going to be a very fun read but I really didnt expect the book to be So entertaining and engaging . The book as its blurb says is actually “ Unputdownable” . Each revelation in the book is so unique , Completely unexpected and So well thought out.

Summary:

So this book revolves around a very Motivated , Smart and Good looking guy called Mitchell McDeere. He is described as a Harvard graduate who is just about to graduate from university while being the best in his field among his peers. Author also emphasizes how much the main character strives for success and how it is very much related with the characters upbringing.

When he is just about to Graduate , so many legal firms are lined up for him for all around country among which are even the top ones from Wall Street .

He attends all these fancy interviews but along with that he receives a Special invitation to an interview at a small yet Prestigious Law Firm in Memphis. To give some context Memphis is a pretty small city in America. So he isnt that interested in the interview Because in his mind he thinks why go to some small city when Wall Street is calling.

But he goes to the Memphis interview anyway just out of curiosity . There he is astonished of how great everything in the firm is , Everything is just picture perfect sure some subtle details here and there which dont make sense but he doesnt care about all of that.

In the Interview the firm reveals that it is willing to pay much more than what the wall street guys are paying and gave many more amenities on top of that. This just sounds like a dream to him . But How this dream turns into nightmare is what the initial chapters of the book are about.

Secret files ,bugs in his bedroom , colleagues going missing just to name a few.

On top of that The director of FBI , is all in to get everyone in the firm arrested and contacts Mitchell to be the mole of the Firm for the FBI in exchange for immunity for him and his wife.

Story revolves around how the main charecter smartly tackles both The Firm and the FBI to get the Best outcome for himself and his wife .

Analysis:

As i have mentioned the book is an absolute rollercoaster experience for sure , the story is really intriguing , charecters and their motives are very well defined , new situations continously pop up around the main charecter , how he tackles all them while being absolutely a Badass is basically the central theme of the book.

Maybe something i didnt like much about this book was how perfectly the firm's secrets were hidden before Mitchell could uncover it , like how did the firm get over so many things they did so easily. But ya the book mentions how great the firm was prepped for each thing beforehand so ya i understand. Also the Firm is willing to go any extents to keep their Secret a Secret.

When couple of Top level associates are about to talk to Fbi officials , They are just straight up killed and potrayed to the world as if it was an accident. The Head of the firm says “ You think I like it?What do you want us to do? Sit backand let them talk?” He continues to say how he feels compelled to do all of this to save the firm and to save himself too from his Boss ,

He says “ If you go argue with them , You will also be floating around in some island . We should just drive around in our fancy cars and play our roles, if we get sanctimonious what happened to them is not just for them.” which conveys that even at his position he is scared of the people who are actually controlling the firm from the backstage.

It was the main charecter who stood out for me like they were for sure so many good charecters in this book . The Guy is a Harvard graduate has Stellar grades and he is good in sports too. He works like 100 hrs most of the weeks and successfully earns alot off money.All while having a loving wife who just to mention is also a Harvard Graduate .

The book conveys two important things i believe , one , is that not everything that shines is a Diamond basically how Mitchell didnt think twice before getting into the firm even though it seemed to be too good to be true.

Second i believe is although lets say you are in a difficult situation, but how do you get out of it while still keeping your cool , thinking of the best plans , Just figuring out everything so well .

I believe thats a skill everyone needs in their lives.

Personal Connection:

For quite a while now, I stopped reading fiction books , I started *leaning on* more towards the non- fiction , self help books side. This book has made me realize how fun and entertaining books are, I am going to try and read more such books . Especially if the author of the book is JOHN GRISHAM . He created such an intresting setting for this book , his writing was more easily digestible and commercial in nature which is an *add on* , on top of an *Edge of the seat* thriller story.

From the charecter I understood that sometimes you just have to just *bite the bullet* and take actions which will actually improve your situation rather than just complaining about it.

Conclusion:

To conclude my book review i would like to say that I really liked this book , it was a very very intresting read and actually has a suprisingly good ending.

I beleive anyone who likes a Well written thriller novel would love to give this book a read .

Especially if you like lawyers in general and follow tv shows like the “**Suits**” , this Book is not going to disappoint you at all.

Maybe people who read books just for the relationship,romance part of it, may not agree with some of the main charecters decision . Especially if they hate to read thrillers, violence and all that maybe this book wouldnt click that well with them.

But apart from that i believe Everyone who reads this book will have a fun time reading , would reccomend this book to my friends and to all other fellow book readers.

I would like to thank this course and especially this assignment to make me realize how much I love reading fiction , And Reading books in General too.

Thanks to our ETC professor who have gave us a chance to do something a little bit more creative and intresting rather than just the same type of academic assignments.

Thanks for Reading the review till the last , hope it was in the way it was expected to be.
