

THE FAMOUS FIVE - SHOCK FOR THE SECRET SEVEN

- ENID BLYTON

NAME – SARDAR CHETAN SINGH

ROLL NO. - 24BTB0A62

BRANCH – BIOTECHNOLOGY 1ST YEAR

Introduction :

Shock for the secret seven is one of the best books written by the author Enid Blyton . This book is filled with all the crime scenes , suspense , thriller and you wont get bored reading it as it is engaging every now and then , and there are some emotional scenes which is good thing about this book.

Summary :

In Shock for the Secret Seven the group of the seven people were shocked when they saw a mysterious house. After long time of research, they found thieves who were not normal or doing theft for the first time, they were experienced ones who had good background in theft. The children (group of 7) were really young so they cannot do anything directly that's why they called the police and stayed there till the police had arrived. With the help of their favorite dog the group of children had caught the thieves after they attempted to steal their dog.

Overview :

I must say that this book shows you how the children are very courageous and took things in their own hands and did the job pretty well and saved others too by doing the same, so this book fills your interest.

Analysis & Opinion :

This book by Enid Blyton is one of the best books in solving mystery and doing its job pretty well. The loyalty and friendship between the characters of the Secret Seven make the story engaging. It is best suited for children, who like these kind of stories.

"We must solve this mystery before it's too late," said Peter with determination.

Jack told his sister that the Secret Seven were ready for any challenge.

Direct speech - **"We must solve this mystery before it's too late," said Peter with determination**

Indirect speech - Peter said with determination that they must solve the mystery before it was too late.

Personal Connection :

Reading this book will make everyone relive their childhood memories and having fun with your closed ones. Also the emotional connect which I was talking earlier was when the dog Scamper was in danger — the group had risked themselves for the dog, really **going out on a limb** for him. The book brought back that sense of suspense. I also appreciated how each of the characters was portrayed with his own personality that added to the group — something that I could personally connect with myself. **Each one brought something different to the table**. Scamper being a dog made me feel emotional about him because of the things going around him. It really **pulled at my heartstrings**

Conclusion :

An exciting tale of adventure and friendship, this book encourages to be curious and adventurous.
