

Five Run Away Together

Enid Blyton

I am not a voracious reader and wasn't interested in reading. So, I asked my friend and he suggested me to take books written by Enid Blyton as the stories are filled with humor and mystery.

After taking the book, I expected to be a story related to drama and ~~friendship~~ ^{friendship} and quite adventurous as well.

The book is the third installment in the famous five series, which was published in 1944. It involves the adventures of five friends. The story begins when the five friends ^{decide} to go out for a holiday at Llyn cottage. They had planned that they would camp in the wild and would enjoy a much-needed break from the adventures they had been in the past. However, ~~when~~ they discover a passage in the nearby Llyn Island, a place with a lot of history and mystery. They then had to fight a group of ~~some~~ ^{some} characters and a pair of criminals. So, their plan of having a good time eventually turns into an investigation as they

as they ~~reveal~~ secrets and solve various mysteries.

The main characters include - Julian, Dick, Anne, George and Timmy (the dog). Julian is a guy, who is more responsible. Dick is the ~~one~~ ^{most} practical and resourceful guy. Anne is the kind hearted sister and George is the independent and courageous boy and Timmy is the loyal dog.

The Central theme revolves around friendship and teamwork. The way the ~~5~~ five friends worked together as a team is very ~~a~~ heartwarming to see and interesting at the same time.

What worked for me is the way the author has written ~~the~~ about the strong bond of friendship between the five guys and also the teamwork. They worked together as a team, which helped them in solving the mystery. Also, the way they handled the situation was ~~also~~ commendable.

What didn't work for me was the Anne's role in the story. I felt that her character was very ~~fast~~ old fashioned and ~~as~~ she needs to be spoon-fed almost everytime. Also, the antagonist's character was very basic and ~~they~~ we can almost predict regarding what is going to happen next. There is no depth in the character.

Direct Speech: "I don't like this at all." Said Anne

Indirect Speech: "Anne said that she didn't like that at all."

Direct Speech: "We must hide quickly before they see us!"
whispered Dick

Indirect Speech: Dick whispered that they must hide quickly before they were seen.

The book has impacted me in various things like the value of friendship, Problem Solving and Critical thinking skills. Also, it tells us about teamwork as the five friends worked together, which helped them in their successful journey. Also, helping each other during tough times is also something which has impacted me. It has impacted me on my creative skills and imagination. It also talks about travelling and ~~outdoor~~ exploring the world outside.

The book has changed my perspective ~~when it comes to~~ and has helped me to look at life from a different angles. I had also ~~come across~~ stumble upon lessons like friendship, teamwork. Also, the book

Inspired me to leap into action and ~~take~~ fight the difficulties head-on and not to run-away from it.

The book has paved the way for me, by introducing ~~me~~ the reader to the world of adventure and mysterious stories. It has also changed my perspective about teamwork, as the five friends ~~had put~~ joined forces ~~(or)~~ ^{and} ~~teamed up~~ to solve the mystery and tackle challenges together.

Idioms: The ball is in your court

Make a mountain out of a molehill

I would definitely recommend this book because the way Enid Blyton has shown her expertise in blending a story of five good friends with a good amount of humor and mystery.

A person who ~~has~~ is a admirer of adventure and mystery will definitely enjoy this ~~sto~~ book and also a person who believes in friendship and teamwork who ~~would~~ ^{will} definitely get appealed by the book.
