

BOOK REVIEW

Title: *The Master of the Unexpected Bloodline*

Author: *Sidney Sheldon*

INTRODUCTION

When I was assigned the task to write a book review of a book of my choice, I thought to select a book with a smaller number of pages. When I was randomly searching for books, I saw this book and the title felt somewhat attractive and upon searching about the book, I came to know that it was a thriller. I was curious to know what surprises the story might hold.

SUMMARY

The story is about the Roffe family, they are a very rich family because they own a very big drug company. The main character of the story is “Elizabeth Roffe”, she is smart and strong person. The story starts when her father dies in a suspicious way. Her father declares her as the heir of the company. Someone in her family is trying to kill her so that they can take control over the company. The story continues as she tries to find the assassin of her dad. In her way, she learns a lot about business, family secrets and about her enemies whom she didn’t even know. She meets a lot of political leaders, friends who are hiding some truths and some unknown people who can help her solve the mystery. The main idea of the book is about people betraying their own family members for power and wealth and a woman who is fighting for her family and herself.

ANALYSIS & OPINION

Sidney Sheldon writing is very confusing but in good way. Like every time new twist is coming. I was thinking, "what is happening now?" One thing after another keeps happening, no time to stop. I didn't even know how I finished so many pages. Some people in the book are normal, not special. But Elizabeth Roffe, she is strong girl. Not scared. She wants to find the truth and she doesn't give up. That's why I liked her. The family in the book — too much drama. All are lying, hiding things. One person says one thing, but doing something else. I was thinking, "who is telling truth?" But sometimes too many twists also make it little headache. Like too much. The book shows that if people want money and power too much, they will do anything. Even their own family, they will hurt. Elizabeth slowly understands everything. Other people in the company were talking like, she is too young to handle this big job. I felt bad when I read that. Why they don't trust her?

PERSONAL CONNECTION

I don't know about big business like in this book, but still I feel something same like Elizabeth. She was trying to do right thing. Even when many problems come, she not stop. That part I liked. This story show me that people not always same like they look. Now I don't trust anyone fast like before.

When I read the book, I feel like I walking in dangerous place. Like something bad can come anytime. I was little confused sometimes, but I try to understand. I was thinking what is going on, who is doing wrong. Book make me think more. It keep me on my toes.

At last, I respect Elizabeth more. She not scared. She didn't run away. She fight alone. I like that. She show that strong person is not one who fight, but one who stay strong when big problem come. That part make me feel something inside.

CONCLUSION

I think this book is good for people who like fast story and full of surprise. It always have something happening, so you not feel bored. If you like books with strong girl character, you will enjoy this one. Elizabeth not give up even when all things go bad. People who like story about rich family problem and how power make people do wrong things, they will like this. If you like Sidney Sheldon books, then you can read this also.
